# Stop, Think, Decide

An integrated series of interactive curriculums targeted at Anti-Bullying, Safe Schools, and Decision Making

## Consequences of Retail Theft

The most common crime for adolescents is **Retail Theft**

The research and data revealed that there are basically eight reasons a student engages in retail theft.

1. **Peer Pressure**
2. **Want**
3. **Impulse**
4. **Anger**
5. **Excitement**
6. **Entitlement**
7. **Denial**
8. **Greed**

The consequences of retail theft include possible fines, a police record and other penalties which actually can affect a student's future and family finances.

The research conducted finds that the student acted without thinking about the consequences, because no programs were implemented to educate them. Students had no fears because they felt their actions were unimportant and meaningless.

This interactive program introduces the student to eight situations that are realistic. The significance of this program is two-fold:

*First - The questions they are asked after viewing a scenario*

*"Do you understand the feelings of the main character?"*

*"Are they justified?"*

These scenarios and questions were designed to:

1. Engage the student in discussion revealing their thoughts about retail theft
2. Prepare for the emotional and psychological issues involving retail theft
3. Preventing a student from the action of retail theft

*Second - The consequences of each criminal case are detailed at the end of each scenario*

Series partially funded by a GRANT from the Department of Justice and produced in Partnership with the *Palm Beach county Schools, FL.*
